DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 and 2, drawn to a copolymer of ethylene and a comonomer of 4 or more carbon atoms.

Group II, claim 3, drawn to a terpolymer comprising propylene, ethylene, and a comonomer of 4 or more carbon atoms.

Group III, claims 4-13, drawn to blends of two different copolymers of ethylene and either an olefin of 4-20 carbon atoms or a cycloolefin.

Group IV, claims 14-34, drawn to blends of a propylene-based polymer and two different ethylene/olefin copolymers.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. Specifically, there is no clear relationship between the any of the copolymers described in claims 1-3 or any of the blend components described in claims 4-34, and there does not appear to be any requirement that any of the copolymers of claims 1-3 are required components of any of the blends of claims 4-34, primarily because the physical properties specified for the polymer components of claims 1-³~~4~~ are not the same as those specified for the blend components of claims 4-34. Furthermore, in view of the fact that "Y" references have

been cited against the claims in the International Search Report, the claims fail to comprise a special technical feature which defines a contribution over the prior art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rob Rábago whose telephone number is (703) 308-4347. The examiner can normally be reached on Monday - Friday from 7:30 am - 3:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (703) 308-2450.
